

## **CANDIDATE FOR BIGHORN-DESERT VIEW WATER AGENCY**

**NAME: DUANE D. LISIEWSKI**

**OCCUPATION: Retired Aircraft Electrician**

I come to the board of Directors with no support of special interest groups and no personal agenda but for the betterment of the water agency and the community.

Fair rates are for everyone and not just some. I will not support any special rates for special interest groups. I feel everyone in our community should be treated fairly.

Our water resources need to be managed wisely, utilizing the water system master plan as a guideline. This master plan was presented to the Board of Directors in April and is especially important because of the statewide drought and in looking ahead for our future.

I am a huge supporter of the Brown Act which needs to be respected by all parties. All people have the right to voice their opinion in any public meeting and that must be respected.

I strongly support a citizen's advisory committee to give the people more voice in the water agency. I recognize the importance of good positive input from the community.
